

High Risk PSD Driving

This course is designed for the Soldier who is assigned to a Protective Service Detail and may be called upon to fulfill the role of driver. This course prepares students to operate a motor vehicle and identify and react to threats in a Non-Permissive Environment i.e. Iraq and Afghanistan (High Risk) while transporting passengers safely.

Students will learn to effectively control a vehicle under a variety of conditions while safeguarding passengers at the same time. Emphasis is placed upon evasive driving and the skills required to get off the "X." Practical exercises using scenario based training with Simunitions and Live Fire are conducted to prepare students for real world situations during daylight and nighttime operations.
