

Mechanical Breaching

The aim of this course is to familiarize law enforcement and military operators in the correct procedures for effectively breaching doors and windows using mechanical, ballistic, thermal, and cutting means.

On completion of the course, operators will be able to confidently perform a target analysis on a breach point and then select and utilize the most effective tool in order to breach and gain access into the stronghold.

Students: 18 maximum
Law enforcement and military

Duration: 3 days

Location: OSTC, West Memphis, AR

Cost: \$1050.00

Discounts available for larger groups
