

# Paramedic Recertification

Olive Security Training Center will host the Paramedic Recertification Course delivered by Global Operations Resources Group July 27 through August 2, 2008

The paramedic recertification / reentry course is designed to recertify a nearly expired paramedic or to re-enter an expired formerly certified Nationally and State Registered Paramedic. It is an intensive 7-day training opportunity where most days exceed 12 hours. It will provide at a minimum – Four 12 hour days of DOT standard paramedic refresher classes, and certifications in ITLS, BLS, ACLS, and PALS. On the seventh day, the students will be offered an opportunity take the skills test at a local testing center.

The CMEs are accredited through CECBEMS.
